

Lanzerac Cabernet Sauvignon 2019

Jonkershoek Range

APPELLATION

Jonkershoek Valley, Stellenbosch

VITICULTURE

The grapes used for the Lanzerac Cabernet 2019 were sourced from four vineyard blocks (D2, J13, J14 and J15) located on Lanzerac and Jonkersdrift in the Jonkershoek Valley. Oldest block, D2, was 25 years old at the time of harvest and covered an area of 5.34 hectares in total whilst the remaining blocks used, J13, J14 and J15, were 14 years old. The various blocks are situated at an altitude of 100m-336 meters above sea level with mainly deep red decomposed granite soils. As per Lanzerac's standards, all pruning and harvesting was done by hand to ensure that only healthy and fully ripe grapes reach the cellar. The yield for the 2019 vintage was around 7 tons/hectare.

HARVEST DATE

Harvesting of the Cabernet was earlier than usual and took place from 20th February and ended on the 5th of March.

VINIFICATION

All Cabernet grape bunches were hand sorted in the cellar upon intake before being destemmed. The loose berries underwent further hand sorting before being lightly crushed. Fermentation took place in stainless steel tanks with regular pump-overs occurring to extract colour and flavour. After fermenting dry, a portion of the wine was left on the skins for 2-3 weeks before being drained off and the skins pressed. The wine underwent malolactic fermentation in a selection of new, 2nd fill and 3rd fill French oak barrels for approximately 18 months. Regular rackings resulted in excellent integration between wood, fruit and tannins.
